

# Rabbit anti MMP-3 (MMP-10) Polyclonal Antibody

Alternative Name(s): SL-1; Matrix metalloproteinase-3; MMP-3; Transin-1;

#### **Order Information**

• Description: MMP-3 (MMP-10)

• Catalogue: 500-12674

Lot: See label

• Size: 100ug/200ul

• Host: Rabbit

• Clone: nan

• Application: IHC(P), WB

• Reactivity: Hu

## **ANTIGEN PREPARATION**

Recombinant protein encoding human MMP-3 aa 251-478.

#### **BACKGROUND**

Matrix metalloproteinases (MMP) are proteolytic enzymes capable of degrading connective tissue components. Imbalanced secretion of certain MMP or disturbances in the differential control of MMP by tissue inhibitor of MMPs (TIMPs) is implicated in the invasive potential of malignant tumors. Stromelysin (MMP3 / Transin) degrades several matrix components including the core proteins of proteoglycans, laminin and non-helical regions of collagens.

#### **PURIFICATION**

The Rabbit IgG is purified by Epitope Affinity Purification

# **FORMULATION**

This affinity purified antibody is supplied in sterile Phosphatebuffered saline (pH7.2) containing antibody stabilizer

# **SPECIFICITY**

This antibody reacts with human MMP3. The other species are not tested.

## **STORAGE**

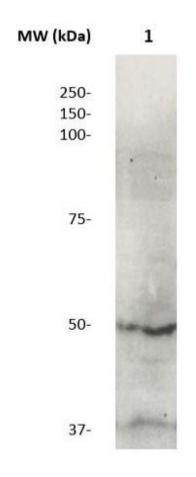

The antibodies are stable for 24 months from date of receipt when stored at -20oC to -70oC. The antibodies can be stored at 2oC-8oC for three month without detectable loss of activity. Avoid repeated freezing-thawing cycles.

## **APPLICATIONS/SUGGESTED WORKING DILUTIONS\***

- Western Blot: 0.1-1 µg/ml
- ELISA: 0.01-0.1 μg/ml
- Immunoprecipitation: 2-5 µg/ml
- IHC: 2-10 µg/ml
- · Flow cytometry: Not tested
- Molecular Weight: 54.0
- Positive Control: Kidney Tissue
- Cellular Location: Cell Membrane

<sup>\*</sup>Optimal dilutions should be determined by researchers for the specific applications.

Western Blot: The whole lysate derived from Hela (20 ug/lane) immunoblotted by Rabbit anti – MMP3 (Cat# 500-12674) at 1:500. Observed a major immunoreactive band at molecular weight ~54 kDa.
