

Rabbit anti MMP-28 Polyclonal Antibody

Alternative Name(s): MM28; MMP25; MMP-25; MMP-28; EPILYSIN

Order Information

Description: MMP-28
Catalogue: 600-690
Lot: See label
Size: 100ug/200ul
Host: Rabbit
Clone: nan

• Application: IHC(P), WB

• Reactivity: Hu

ANTIGEN PREPARATION

A synthetic peptide corresponding to inter-segment of human MMP28 protein.

BACKGROUND

MMP28 is 45 kDa protein that belongs to the proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix for both normal physiological processes, such as embryonic development, reproduction and tissue remodeling, and disease processes, such as asthma and metastasis. MMP28 is a secreted enzyme that degrades casein. It plays a role in tissue homeostasis and in wound repair.

PURIFICATION

The Rabbit IgG is purified by Epitope Affinity Purification

FORMULATION

This affinity purified antibody is supplied in sterile Phosphatebuffered saline (pH7.2) containing antibody stabilizer

SPECIFICITY

This antibody recognizes human protein. The other species are not tested.

STORAGE

The antibodies are stable for 24 months from date of receipt when stored at -20oC to -70oC. The antibodies can be stored at 2oC-8oC for three month without detectable loss of activity. Avoid repeated freezing-thawing cycles.

APPLICATIONS/SUGGESTED WORKING DILUTIONS*

• Western Blot: 0.1-1 μg/ml

• ELISA: 0.01-0.1 μg/ml

• Immunoprecipitation: 2-5 µg/ml

• IHC: 2-10 µg/ml

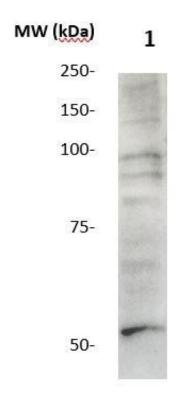

• Flow cytometry: Not tested

• Molecular Weight: 45.0

Positive Control: Kidney TissueCellular Location: Cell Membrane

*Optimal dilutions should be determined by researchers for the specific applications.

Western Blot: The whole lysate derived from MCF7 (20 ug/lane) immunoblotted by Rabbit anti – MMP-28 (Cat# 500-690) at 1:500. Observed a major immunoreactive band at molecular weight ~59kDa.
